CUSHMAN & WAKEFIELD

HOW TO FIT OUT FOR SUSTAINABILITY & WORKPLACE OUTCOMES

A practical guide to sustainable fit-outs that reduce carbon, improve workplace experience, and deliver long-term value.

STEP 1

START BEFORE YOU SIGN

- The building you choose can have a greater impact on sustainability outcomes than the fit-out itself.

STEP 2

DESIGN A FIT-OUT THAT PERFORMS

- Create workplaces that balance energy efficiency, employee experience and long-term business value.

STEP

3

CHOOSE MATERIALS AND PARTNERS WITH PURPOSE

- Reduce carbon, waste and cost through smarter materials, procurement and supplier choices.

STEP 4

TURN DESIGN INTO PERFORMANCE

- Protect sustainability outcomes through construction, commissioning and day-to-day operations.

STEP 5

THINK ABOUT PORTFOLIOS NOT PROJECTS

- Turn individual fit-outs into a repeatable strategy that delivers results across your portfolio.
